*Custom mixes must be individually approved
prior to use on organic farms.*

KELP ~

Derived from seaweed, this ingredient can provide trace elements in a naturally balanced way. It is a natural source of minerals, amino acids, and vitamins. This is approved for use by organic farms. The feeding rate is 1 to 4 ounces per head per day.

LEVUCCELL SC ~

A yeast product approved for use by organic farms; aids fiber and starch digestibility, and rumen function.

SALT ~

Processed by all-natural methods; a necessary ingredient for livestock rations. This is approved for use by organic farms.

SOY OIL ~

Extracted by all-natural methods; ideal for dust control. This is approved for use by organic farms.

Consult with your Renaissance consultant for a balanced ration and detailed feeding program designed to improve the performance of your herd.

Organic producers are responsible for verifying that any products used on their farm have been approved by their certifying agency.
