

# SAFETY DATA SHEET

Original Preparation Date: No data available

Revision Date: 30-Dec-2015

**Revision Number:** 1

## 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND THE COMPANY/UNDERTAKING

#### **Product Name:**

SAFEGUARD SW DEWORM .9% (5/10#) Use of the Substance / Preparation: Animal Feed Ingredient **Product Code:** 79070018

Contact Manufacturer

Emergency response telephone number: Chemtrec 1-800-424-9300 (CCN 1635)

Contact Manufacturer: ADM Alliance Nutrition, Inc. 1000 North 30th St. Quincy, IL 62301 United States Tel. (+1) 217-222-7100 (business hours)

2. HAZARDS IDENTIFICATION

	Emergency Overview	
May form combustible dust concen	trations in air (during processing and h	andling). Product dust may cause mild,
	mechanical irritation.	
Appearance	Physical State	Odor
Tan	Solid	No information available

Classification and Labelling of Chemicals (GHS):		
OSHA Defined Hazard(s)	Combustible Dust	
	One or more of the product component(s) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.	

#### OSHA / GHS Label Elements

GHS Hazard Pictogram(s):	Note: The OSHA combustible dust hazard class does not have an assigned pictogram.
Signal Word:	Warning
Hazard Statement(s):	May form combustible dust concentrations in air.

Up to 45.9 % of the mixture consists of ingredient(s) of unknown acute dermal toxicity. Up to 45.9 % of the mixture consists of ingredient(s) of unknown acute inhalation toxicity.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical nature of the preparation Mixture.

## The following component(s) are considered hazardous in accordance with paragraph (d) of 29 CFR 1910.1200 [OSHA] or require disclosure as an air contaminant.

Chemical Name	CAS-No	Volume %	Substance Hazard Classification
Carbonic acid, calcium salt (1:1)	471-34-1	40% < x < 50%	29 CFR 1910.1000 Air Contaminant.
White mineral oil	8042-47-5	1% < x < 3%	29 CFR 1910.1000 Air Contaminant. (as respirable mist) Carc. 1B. (in strong organic acid mist)
Mineral oil	8012-95-1	< 1.0%	29 CFR 1910.1000 Air Contaminant. (as respirable mist) Carc. 1B. (in strong organic acid mist)

## 79070018 - SAFEGUARD SW DEWORM .9% (5/10#)

Where a single SDS is used for similar mixtures or in cases of a batch-to-batch variability, OSHA guidance allows for the use of concentration ranges. [Directive: CPL 02-02-079]

## 4. FIRST AID MEASURES

#### Description of first aid measures

**Eye Contact** Rinse thoroughly with plenty of water, also under the eyelids.

Skin Contact Wash off with warm water and soap.

Inhalation Move to fresh air.

Ingestion Clean mouth with water and afterwards drink plenty of water.

General Advice When symptoms persist or in all cases of doubt seek medical advice.

#### Most important symptoms and affects, both acute and delayed

**Eyes** Contact with eyes may cause mechanical irritation.

Skin Product dust may cause mild, mechanical irritation. Repeated exposure may cause skin dryness or cracking.

Inhalation Dust may cause irritation of respiratory tract.

**Ingestion** Health injuries are not known or expected under normal use. The product is not expected to produce ill effects when blended into animal feed in the recommended quantities.

Main Symptoms Repeated or prolonged exposure may cause irritation of eyes and skin. Shortness of breath.

#### Indication of any immediate medical attention and special treatment needed

Notes to Physician Special forms of treatment and immediate medical attention are not specified. Treat Symptomatically.

## 5. FIRE-FIGHTING MEASURES

#### Flammable Properties

As with most organic solids, combustion is possible at elevated temperatures or by contact with an ignition source. Fine dust dispersed in air may ignite. Risk of ignition followed by flame propagation or secondary explosions should be prevented by avoiding accumulation of dust, e.g. on floors and ledges.

#### Extinguishing media

**Suitable Extinguishing Media** Water. Foam. Carbon dioxide (CO<sub>2</sub>) Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. **Unsuitable Extinguishing Media** None known.

#### Special hazards arising from the substance or mixture

Hazardous Combustion Products Carbon oxides. Specific Hazards Arising from the Chemical None known. Sensitivity to mechanical impact No information available. Sensitivity to static discharge Yes. (as dust).

#### Advice for fire-fighters

**Protective Equipment and Precautions for Firefighters** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

<u>NFPA</u>

Health 1 Flammability 1 Stability and Reactivity 0 Physical hazard None known

## 6. ACCIDENTAL RELEASE MEASURES

#### Personal Precautions, Protective Equipment, and Emergency Procedures

Use appropriate personal protective equipment. Avoid dust formation and accumulation.

**Environmental Precautions** 

Prevent further leakage or spillage if safe to do so.

Methods and Materials for Containment and Cleaning Up

Sweep up or vacuum up using spark-free earthed vacuum cleaner.

## 7. HANDLING AND STORAGE

#### Handling

Ensure adequate ventilation. Avoid dust formation in confined areas. Fine dust dispersed in air may ignite. Keep away from open flames, hot surfaces and sources of ignition. Refer to NFPA 61, "Standard for the Prevention of Fires and Dust Explosions in Agricultural and Food Processing Facilities".

#### Storage

Store in a cool, dry, hygienic situation, whether in bulk silos, tote bags or paper sacks. Keep containers dry and tightly closed to avoid moisture absorption and contamination.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

#### **Exposure Limits**

Where exposure limits have not been established for specific components of this material, please observe the OSHA and ACGIH established limits for particulates not otherwise classified (PNOC). OSHA PEL: [15 mg/m<sup>3</sup> (total dust) 8-hr TWA], [5 mg/m<sup>3</sup> (respirable) 8-hr TWA]. ACGIH TLV: [10 mg/m<sup>3</sup> (inhalable) 8-hr TWA], [3 mg/m<sup>3</sup> (respirable) 8-hr TWA].

Chemical Name	Volume %	ACGIH TLV	OSHA PEL	NIOSH
Carbonic acid, calcium salt (1:1)	40% < x < 50%		TWA: 15 mg/m³ total dust TWA: 5 mg/m³ respirable fraction	TWA: 10 mg/m <sup>3</sup> total dust TWA: 5 mg/m <sup>3</sup> respirable dust
White mineral oil	1% < x < 3%	TWA: 5 mg/m <sup>3</sup> excluding metal working fluids, highly & severely refined inhalable fraction	TWA: 5 mg/m <sup>3</sup>	IDLH: 2500 mg/m <sup>3</sup> STEL: 10 mg/m <sup>3</sup> TWA: 5 mg/m <sup>3</sup>
Mineral oil	< 1.0%	TWA: 5 mg/m <sup>3</sup> excluding metal working fluids, highly & severely refined inhalable fraction	TWA: 5 mg/m³	IDLH: 2500 mg/m <sup>3</sup> STEL: 10 mg/m <sup>3</sup> TWA: 5 mg/m <sup>3</sup>

#### **Appropriate Engineering Controls**

**General Hygiene Considerations** 

Personal Protective Equipment Eye/face Protection.

Skin and Body Protection

**Respiratory Protection** 

comply with the occupational exposure limits. However it is the duty of the user to verify this and follow given exposure limits at the workplace. Handle in accordance with good industrial hygiene and safety practice.

Ensure adequate ventilation, especially in confined areas. Apply technical measures to

If exposed to airborne dust, safety goggles are recommended. Protective clothing and gloves may be worn to reduce the potential of mechanical irritation. Also take into consideration the specific local conditions under which the product is used. If exposed to airborne dust, use appropriate NIOSH approved (or equivalent) respiratory protection. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Appropriate respiratory protection should be selected by a qualified person and should be based upon a risk assessment of the work activities and exposure levels.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance Physical State Odor Odor Threshold pH

Flash Point Autoignition Temperature Boiling point Melting/Freezing Point Decomposition temperature Oxidizing Properties Flammability Limits in Air Tan Solid No information available No information available No information available

Not applicable (solid) No information available Not applicable (solid) No information available No information available No information available No information available

Authored to comply with 29 CFR 191:1200, as amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Solubility(ies) Evaporation Rate Vapor Pressure Vapor Density Relative Density Viscosity (kinematic) Partition Coefficient (n-octanol/water) No information available Not applicable (solid) Not applicable (solid) Not applicable (solid) No information available No information available No information available

## 10. STABILITY AND REACTIVITY

**Reactivity** Stable under recommended use and storage conditions.

**Stability** Stable under normal conditions.

Possibility of Hazardous Reactions None under normal processing.

Conditions to Avoid Heat, flames and sparks. Avoid dust formation.

Incompatible Materials No materials to be especially mentioned.

Hazardous Decomposition Products Thermal decomposition may lead to release of, Carbon oxides.

## 11. TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity		Based o	n available data, no e	evidence of acute tox	icity. (Classification is	based on available	
rivato toriony							
		literature data for the significant mixture components). The product is not expected to produce ill effects when blended into animal feed in the recommended quantities.					
Skin corrosion/irritation		Based on available data, not, or only slightly irritating. (Classification is based on available					
			data for the significa				
Serious eye damage/eye i	irritation	Based or	n available data, no e	evidence of serious e	ye damage / irritation	. (Classification is	
		based or	n available literature o	data for the significar	it mixture components	s).	
Respiratory or skin sensitisation Not e					(Classification is bas	ed on available	
			data for the significa		,		
Germ cell mutagenicity					e of the significant in	out ingredients of	
		this mixture have been identified as being mutagenic.					
Carcinogenicity			ased on available data, no evidence of carcinogenicity. No component of this product				
		present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen. (White mineral oil is only a suspected carcinogen in mist form).					
					-	· · ·	
Chemical Name	Volum		OSHA	NTP	ACGIH	IARC	
White mineral oil	1% < x	< 3%			A2 - Suspected Human Carcinogen		
Mineral oil	< 1.0%				A2 - Suspected Human Carcinogen	Group 1 - Carcinogenic to Humans	
Reproductive toxicity			ot classified. Not expected to be toxic to reproduction. None of the significant input gredients of this mixture have been identified as being toxic to reproduction.				
			ed. No evidence of toxicity. None of the significant input ingedients of this ve been identified as a STOT SE hazard.				
		Not class	Not classified. No evidence of toxicity. None of the significant input ingedients of this				
		mixture have been identified as a STOT RE hazard.					
Aspiration hazard		Based on available data, no known aspiration hazard. (Classification is based on available literature data for the significant mixture components).					
		interature	data for the significa		1.5).		
Potential health effects							
Eyes		Contact with eyes may cause mechanical irritation.					
Skin		Product dust may cause mild, mechanical irritation. Repeated exposure may cause skin					
		dryness or cracking.					
Inhalation	Dust may cause irritation of respiratory tract.						
Ingestion		Health injuries are not known or expected under normal use. The product is not expected to					

Authored to comply with 29 CFR 191:1200, as amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

## 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

Not classified for aquatic toxicity. This product has not been evaluated for eco-toxicological effects. Component-level values are listed below.

Chemical Name	Volume %	Fresh Water Algae	Acute Fish Toxicity	Daphnia (Water flea)
White mineral oil	1% < x < 3%		LC50: 96h 10000mg/L (Lepomis macrochirus)	
			(	

## 13. DISPOSAL CONSIDERATIONS

Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.

#### Waste Disposal Methods

Dispose of in compliance with the laws and regulations pertaining to this product in your jurisdiction. **Contaminated Packaging** Empty containers should be taken for local recycling, recovery or waste disposal.

**14. TRANSPORT INFORMATION** 

### Domestic transport regulations (USA)

**DOT** Not regulated

## 15. REGULATORY INFORMATION

## International Inventories

As animal feed, this product is exempted from the following inventories: U.S.A. (TSCA).

## USA

#### Federal Regulations

## SARA 311/312 Hazardous Categorization

No
No
Yes (when in the form of combustible dust)
No
No

#### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 372.

#### **CERCLA/SARA 103-302**

Sections 103-302 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product is not known to contain any chemicals which are subject to the reporting requirements of the Act or regulations contained in 40 CFR 103-302.

#### State Regulations

#### State Right-to-Know

This product may contain one or more ingredient(s) which are subject to state right to know laws. Please contact your sales representative for ingredient details if needed.

	16. OTHER INFORMATION
Prepared By:	ADM - Product Regulatory Affairs
Revision Date:	30-Dec-2015
Revision Number:	1

Authored to comply with 29 CFR 191:1200, as amended to conform to the United Nations' Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Not available.

Reason for revision:

#### Abbreviations and acronyms

A1 - Known Human Carcinogen A2 - Suspected Human Carcinogen A3 - Animal Carcinogen ACGIH TLV - American Conference of Governmental Industrial Hygienists Threshold Limit Values **CAS - Chemical Abstract Service** Ceiling - Ceiling Limit Value: Concentrations that should never be exceeded at any given time (instantaneous) Delisted - Substances Delisted from Report on Carcinogens **DNEL - Derived No Effect Level** DOT - U.S. Department of Transportation GHS - Globally Harmonized System of Classification and Labelling of Chemicals Group 1 - Carcinogenic to Humans Group 2A - Probably Carcinogenic to Humans Group 2B - Possibly Carcinogenic to Humans IARC - International Agency for Research on Cancer IDLH - Immediately Dangerous to Life or Health Known - Known Carcinogen LC50 - Lethal concentration that produces fatalities in 50% of a given test population LD50 - Median lethal dose of a given test population NFPA - National Fire Protection Association NIOSH - National Institute of Occupational Safety and Health NOAEL - No Observed Adverse Effect Level NTP - National Toxicology Program OECD - Organisation for Economic Co-operation and Development OSHA - Occupational Safety & Health Administration OSHA PEL - Occupational Safety and Health Administration Permissible Exposure Limits PNEC - Predicted No-Effect Concentration Present - Carcinogen or potential carcinogen to be identified under OSHA's Hazard Communication Standard Reasonably Anticipated - Reasonably Anticipated to be a Human Carcinogen Skin notation - Potential for cutaneous absorbtion STEL - Short Term Exposure Limit: Concentrations that should not be exceeded except for short periods of time ( usually 15-minutes) STOT - Specific Target Organ Toxicity STV - Short Term Value (same as STEL)

TWA - Time Weighted Average: Average concentration that should not be exceeded during a work day (usually 8-hours) Under Consideration - Under Consideration by the National Toxicology Program

The information provided on this (M)SDS is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guide for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered as a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text.
