Re: Request of Safety Data Sheet for the following product. It is Safeguard Swine Wormer.

Customer: To Whom It May Concern.

We do not provide a Safety Data Sheet for this product because it is excluded from the requirements under 29 CFR 1910. 1200(b) (5) (iii). As a complete mixture, it does not meet the definition of a chemical hazard. The mixture and the concentration of individual ingredients in this product are not hazardous (29 CFR Part 1910/12007). This feed additive product is not defined as a "Hazardous Chemical" under OSHA's Rule, 29 CFR 1910. 1200 (c).

Therefore we determined this product does not require a Safety Data Sheet.

The manufacturer of a certain ingredient in this mixture has a SDS and we are providing their SDS for that ingredient.

If you have any questions, please do not hesitate to contact me at 1-937-962- 2661 Ext: 2383.

Sincerely,

Mark Hemmerich
